

**INTERNSHIP ACCEPTANCE DECLARATION (2020-21)**

To  
The Professor Incharge  
Training and Placement Cell  
IIT (BHU) Varanasi

Dear Sir,  
I have been offered Campus Internship offer from Samsung Delhi with Intern Profile as research and development.

**Stipend :- 35,000/-**

**UNDERTAKING BY THE STUDENT**

I, SUNNY KUMAR, am accepting the above-mentioned offer after having carefully read and fully understood the provisions contained in the Internship Rules and Regulations for students (Academic Session: 2020-21) including the following:

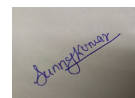

1. The internship policy is of One Student One Internship. If any student gets selected for an internship in a company through the TPC, it is mandatory for the student to accept the offer. On accepting an internship offer, the student stands out of the internship process.
2. In case a student wants to reject the offer, he/she should inform the company and the cell before 15th April, 2021. The students must understand that the whole selection process is a very serious time and money consuming affair for the companies. Any dropout does affect their manpower plan. An early information may help them in having makeup against dropout if informed well in time.
3. If the student rejects a paid internship offer earned through campus for the reasons whatsoever at any time during the academic session 2020-21, the student will not be allowed to sit for placement during December 1-7 of the placement season. This will not be applicable for M.Tech. students only on account of decisions taken by DUGC/DPGC.
4. If a student, having accepted a paid internship earned through the cell, is found to be absent during the paid internship period (without the consent of Professor In-Charge, TPC), he/she will be debarred from the placement process during the entire month of December of the next placement season.
5. For all exceptional cases, the authority of the final decision lies with the Professor In charge.
